1 The International Social Survey Programme

The International Social Survey Programme (ISSP) is a continuing annual programme of cross-national collaboration. It brings together pre-existing social science projects and coordinates research goals, thereby adding a cross-national perspective to the individual national studies.

It started late in 1983 when SCPR,¹ London, secured funds from the Nuffield Foundation to hold meetings to further international collaboration between four existing surveys - the **General Social Survey** (GSS), conducted by NORC in the USA, the **British Social Attitudes Survey** (BSA), conducted by SCPR in Great Britain, the **Allgemeine Bevölkerungsumfrage der Sozialwissenschaften** (ALLBUS), conducted by ZUMA in West Germany and the **National Social Science Survey** (NSS), conducted by ANU in Australia. Prior to this, NORC and ZUMA had been collaborating bilaterally since 1982 on a common set of questions.

The four founding members agreed to (1) jointly develop modules dealing with important areas of social science, (2) field the modules as a fifteen-minute supplement to the regular national surveys (or a special survey if necessary), (3) include an extensive common core of background variables and (4) make the data available to the social science community as soon as possible.

Each research organisation funds all of its own participation costs. There are no central funds. The merging of the data into a cross-national data set is performed by the Zentralarchiv für Empirische Sozialforschung, University of Cologne. Since 1996, the archive has been aided in its work by ASEP, one of the Spanish member institutes in the ISSP. ZUMA compiles the study monitoring reports for the ISSP and provides the study monitoring questionnaires.

In 2005, the ISSP has 38 members; the founding four - Australia, Germany, Great Britain and the United States - plus Austria, Brazil, Bulgaria, Canada, Chile, Cyprus, the Czech Republic, Denmark, Finland, Flanders (for Belgium), France, Hungary, Ireland, Israel, Japan, Korea (South), Latvia, Mexico, the Netherlands, New Zealand, Norway, the Philippines, Poland, Portugal, Russia, Slovakia, Slovenia, South Africa, Spain, Sweden, Switzerland, Taiwan, Uruguay, and Venezuela.

¹ In 1999 SCPR became NCSR (National Centre for Social Research).

The annual topics for the ISSP are developed over several years by a sub-committee and are pre-tested in various countries. The annual plenary meeting of the ISSP then adopts the final questionnaire. ISSP questions need to be relevant to all countries and expressed in an equivalent manner in all languages. The questionnaire is drafted in British English and then translated into other languages.

The ISSP is unique in a number of ways. First, the cross-national collaboration between organisations is not *ad hoc* or intermittent, but routine and continual. Second, while necessarily more circumscribed than collaboration dedicated solely to cross-national research on a single topic, the ISSP makes cross-national research a basic part of the national research agenda of each participating country. Third, by combining a cross-time with a cross-national perspective, two powerful research designs are being used to study societal processes. The ISSP is also one of the few cross-national studies to conduct and publish study monitoring reports of the annual studies. These are appended to the relevant codebooks and are downloadable from the archive web pages. Other projects, such as the European Values Study have, in fact, adapted the ISSP study monitoring questionnaire for their projects.

2 Archiving of Citizenship Datasets

In order to be officially archived member countries need to deliver data sets to the archive along with a study monitoring description sheet, deliver a study monitoring report (SMQ) to ZUMA and, if any difficulties are noted in the SMQ, have these resolved.

Modules planned

2006	Role of Government IV	A partial replication of Role of Government III (1996), with new questions (module finalised).
2007	Leisure Time and Sport I	A new module (in preparation).
2008	Religion III	A partial replication of Religion II (1998), with new questions (in preparation).

4 Contents of the Citizenship Module

The 2004 survey was a new ISSP module. The decision for a new module on citizenship was taken at the general ISSP assembly 2001, the questionnaire was developed over two years. The multi-national drafting group prepared several questionnaire drafts in accordance with decisions taken at general assembly meetings. These drafts were circulated to ISSP members for input and commentary. A final draft version was discussed and signed off at the general assembly meeting 2003, prior to the year of fielding.

The members of the drafting group for Citizenship 2004 were Canada, Denmark (co-convenors), Mexico, the Philippines, Portugal, and Slovenia.

The table below outlines the topics covered in the module. The questionnaire item numbers are in the first column. If different, the German questionnaire numbers are included in brackets. The variables in the second column are those of the international data set.

5 The German Module

The study description sheet below was submitted to the archive with the 2004 data. We expand somewhat on the information contained in this in sections which follow. A detailed questionnaire on the 2004 fielding was completed by ISSP members, including Germany, in 2004 and 2005 and will be available in 2006 on the GESIS web site.

Table 2: ISSP Study Description Form: 2004 GERMANY

Study Title:	ISSP 2004 Germany – Citizenship I			
Fieldwork Dates:	2.3.2004-12.7.2004			
Principle Investigator:	Dr. Janet Harkness, Prof. Dr. Peter Ph. Mohler			
Sample Type:	Two stage random sample. Names and addresses from registers of inhabitants kept by municipalities. Adults of 18 and older living in private accommodation.			
Fieldwork Methods:	Self-completion questionnaire, interviewer in attendance. Background variables were asked face-to-face (CAPI).			
Context of ISSP Questionnaire:	Self-completion questionnaire following on from a 45 minutes face-to-face CAPI interview (ALLBUS). ISSP 2004 fielded in split with ISSP 2003.			
Sample Size:	1332 ISSP 2004 and ISSP 2003 were fielded in split together with ALLBUS, the German General Social Survey; number of ALLBUS 2004 interviews: 2946; number of ISSP 2003 interviews: 1287			
Response Rates:	Real numbers for (W) western and (E) eastern states			
	N=3603	W=2471	E=1132	A – Total issued (total sample)
	N=351	W=242	E=109	B – Ineligible (address vacant, wrong ages, etc.)
	N=3252	W=2229	E=1023	C – (= A-B) Total eligible
	N=1332	W=896	E=436	D – Total ISSP 2002 interviews received
	N=1920	W=1333	E=587	E – (= C-D) Total non-response
	N=1390	W=945	E=445	F – Refusals
	N=217	W=159	E=58	G – Non-contact (never contacted)
	N=313	W=229	E=84	H – Other reactions (ALLBUS without ISSP Interviews included here)
Language:	German			
Weighted (yes/no):	No			
Weighting Procedure:	Sample for eastern Germany deliberately over-samples the five eastern federal states. If all of Germany is taken as the unit of analysis (rather than the eastern and western states) weighting is necessary. Weighting factor for Western Germany: 1,210130*; weighting factor for Eastern Germany: 0,568173*; recoding of the country variable V3 is necessary: <i>recode V3(2=3).</i> <i>add values labels V3 3 'Germany'.</i>			
Known Systematic Properties in Sample:	None for the total sample			
Deviations from ISSP Questionnaire:	ISSP substantive questionnaire: no deviations; Background variables: no deviations			
Publications:	ALLBUS Methods Report 2004 (forthcoming); ISSP 2003 Methods Report on the German Study (forthcoming) For further information see ISSP bibliography on the ISSP homepage (http://www.issp.org/biblio.htm)			

* Own calculation based on data of Microcensus 2003; figures provided by the German Federal Statistical Office.

5.1 Translation of the Source Questionnaire

Two independent translations were made of the new questions in the module, one by a translation expert and one by a member of the ISSP team. These were discussed in a group meeting with members of the ISSP team and members of the ZUMA cognitive testing laboratory.

5.2 Sample

The ISSP modules for 2004 (Citizenship) and 2003 (National Identity) were fielded together with the ALLBUS 2004 study in a split. The ALLBUS sample in 2004 was designed to yield a representative sample of the adult population (18 years and older) living in private accommodation in Germany, including foreigners able to complete the questionnaire in German. The sample was drawn in a two-stage design from official registers of inhabitants kept by municipalities throughout Germany. First the communities and sample points were selected randomly and then named individuals randomly selected from each sampling point. Full details of the sample are presented (in German) in the methods report on ALLBUS 2004 (Haarmann et al., forthcoming).

5.3 Fielding and Response

Fielding began on March 2nd 2004 and ended on July 12th 2004. The ISSP module was a self-completion questionnaire administered at the end of the ALLBUS CAPI interview. A total of 1332 questionnaires were completed for the module 896 in western states; 436 in eastern states. 89.8 % of ALLBUS respondents agreed to complete the ISSP module. The total ALLBUS response rate was 45.7 % (44.9 % in western states; 47.6 % in eastern states). Based on this, the response rate for the ISSP 2004 was 41.0 % (40.3 % in western states; 42.7 % in eastern states). While ISSP modules are designed as self-completion questionnaires, about 12.7 % of the cases were administered as interviews for various reasons (13.1 % in western states; 11.9 % in eastern states). In addition, a few respondents were administered the “wrong” questionnaire in terms of the split design: 42 respondents got the Citizenship module instead of National Identity and 29 respondents got the National Identity module instead of the Citizenship module.

5.4 Data Editing and Occupational Coding (ISCO 1988)

The fielding institute delivered a formally edited data set to ZUMA. ZUMA carried out additional data editing and prepared the data for merging in accordance with the ISSP 2004 set-up from the ISSP archive. Coding of current or former occupation was also carried out at ZUMA (ISCO 1988; for details of ISCO 1988, see, for example, Appendix I of the cumulative codebook of the GSS, 1972-1998; Davis and Smith 1999).

6 Data Availability

The data were deposited to the Central Archive for Empirical Social Research at the University Cologne, the official ISSP archive since 1986. Together with Analisis Sociologicos, Economicos y Politicos (ASEP), Madrid, the archive is responsible for merging the ISSP data and producing the international merged data sets.

The Questionnaires (English and German)

The numbering of the German questionnaire differs slightly from the English. Filter questions were asked as separate questions and not as part of the substantive questions. Obligatory background variables not included in the self-completion questionnaire were asked in the ALLBUS survey which preceded the ISSP module.

6. To try to understand the reasoning of people with other opinions	1 2 3 4 5 6 7		8
7. To choose products for political, ethical or environmental reasons, even if they cost a bit more.	1 2 3 4 5 6 7		8
8. To help people in (COUNTRY) who are worse off than yourself	1 2 3 4 5 6 7		8
9. To help people in the rest of the world who are worse off than yourself	1 2 3 4 5 6 7		8
10. To be willing to serve in the military at a time of need	1 2 3 4 5 6 7		8

There are a number of groups in society.

11. Should religious extremists be allowed to hold public meetings?

- Should definitely be allowed 1
 Should probably be allowed 2
 Should probably not be allowed 3
 Should definitely not be allowed 4
 Can't Choose 8

12. Should people who want to overthrow the government by force be allowed to hold public meetings?

- Should definitely be allowed 1
 Should probably be allowed 2
 Should probably not be allowed 3
 Should definitely not be allowed 4
 Can't Choose 8

13. Should people prejudiced against any racial or ethnic group be allowed to hold public meetings?

- Should definitely be allowed 1
 Should probably be allowed 2
 Should probably not be allowed 3
 Should definitely not be allowed 4
 Can't Choose 8

Here are some different forms of political and social action that people can take. Please indicate, for each one,

- whether you have done any of these things in the past year,
- whether you have done it in the more distant past,
- whether you have not done it but might do it
- or have not done it and would never, under any circumstances, do it.

	Have done it in the past year	Have done it in the more distant past	Have not done it but might do it	Have not done it and would never do it	Can't choose
14. Signed a petition	1	2	3	4	8
15. Boycotted, or deliberately bought, certain products for political, ethical or environmental reasons	1	2	3	4	8
16. Took part in a demonstration	1	2	3	4	8
17. Attended a political meeting or rally	1	2	3	4	8

	Have done it in the past year	Have done it in the more distant past	Have not done it but might do it	Have not done it and would never do it	Can't choose
18. Contacted, or attempted to contact, a politician or a civil servant to express your views	1	2	3	4	8
19. Donated money or raised funds for a social or political activity	1	2	3	4	8
20. Contacted or appeared in the media to express your views	1	2	3	4	8
21. Joined an Internet political forum or discussion group	1	2	3	4	8

People sometimes belong to different kinds of groups or associations. For each type of group, please indicate whether you,

- belong and actively participate,
- belong but don't actively participate,
- used to belong but do not any more,
- or have never belonged to it.

	Belong and actively participate	Belong but don't participate	Used to belong	Never belonged	Can't Choose

TRANSLATION NOTES

(Numbers refer to questions)

1. **Elections** refer to those held for public officials.
2. **Evade** has the connotation of illegality in not paying taxes owed, and does not mean “avoid”, since “tax avoidance” is not illegal.
3. **Regulations** refers to the operationalization of laws into specific provisions having direct applicability to everyday life.
4. **Keep watch** means exercise vigilance in observing government, with a view to pointing out unwarranted actions or ensuring that proper actions are conducted. **Government** refers to elected and non-elected state authorities. It is not specific to “The Government” in places where that refers to the party in power.

8 & 9. **Worse off** means having a lower standard of living.

11. **Religious extremists** means people who have religious beliefs far from the mainstream. The term usually means these people are not content to simply hold these beliefs, but try to impose them on others.

Preamble to 14-21. **Social action** means public activity intended to produce some kind of impact on the society at large, or a segment of it.

Coding for 14-21. If more than one response, code the more participative one (that is, the one closer to the left end of the scale.)

18. **Civil servant** should be translated with the appropriate term for the public service. Do not use the term “bureaucrat.”

28 & 29. **Government authorities** refers to public officials, both elected and non-elected (i.e. employees).

28. **Minorities** are those groups which, because of their lesser numbers in society, are often identified as needing special attention.

54-56. **Public service** should be translated with the appropriate term (see note on 18) for government officials. Do not use the term “bureaucracy.”
