1 Introduction

1.1 Archiving Basis

Archiving Basis is part of the GESIS Data Services. It is a free-of-charge service for researchers in the social sciences and economics who want to share data or code/syntax for long-term re-use. Archiving Basis helps researchers to make their data:

- **Findable**
 - Description with standardized metadata,
 - Integration into the [GESIS Search](#), the [CESSDA Data Catalog](#) and search engines such as Google,
 - Registration of a Digital Object Identifier (DOI) for easy citation and persistent findability.
- **Accessible**
 - Research data and code/syntax can be downloaded via the browser in accordance with the defined access categories. This includes technical user authentication and authorization procedures.
- **Interoperable**
 - Use of metadata standards and controlled vocabularies for the description of published data and code.
- **Re-usable**
 - Archiving Basis's Terms of Use and the access category applied to the data and code/syntax, in addition to any additional licenses applied, regulate who may use published research files for which purpose.
 - The versioning function of our software makes it possible to publish new versions of research files and making transparent any changes between versions.

The Archiving Basis repository integrates the previous services datorium and SowiDataNet. In 2004, the GESIS repository datorium was launched for the sharing of research data generated by individual researchers and research projects. Building on the technology of datorium, the repository SowiDataNet was developed from 2014-2017 in collaboration with the Wissenschaftszentrum Berlin für Sozialforschung (WZB), Deutsches Institut für Wirtschaftsforschung (DIW) and Leibniz-Informationszentrum Wirtschaft (ZBW) as a service for research institutions without their own infrastructure for sharing and archiving self-produced research data. The Leibniz-funded project ended in 2017.

In 2019 the two repositories were integrated into a single technological platform. Today, this service is actively managed and developed by GESIS under the name "Archiving Basis".

1.2 The Archiving Basis metadata schema

This metadata schema defines a list of mandatory and optional elements for the description of resources published via the Archiving Basis repository. Typically, these resources are datasets or code/syntax files used in the collection or preparation of data along with relevant documentation and instruments, e.g., questionnaires and method reports.

The metadata schema is based on the schemas used by datorium¹ and SowiDataNet², the two repositories integrated in Archiving Basis. It is compatible to the da|ra 4.0³ and DataCite 4.4⁴ metadata schemas, to DDI-Codebook. It uses elements of the Dublin Core Metadata Set⁵ where possible.

2.2 Detailed description of metadata elements

In the following table, the column “Occ.” (Occurrence) indicates whether a metadata element is mandatory or optional, and whether or not it is repeatable:

- 1 = the element is mandatory and occurs only once.
- 1-n = the element is mandatory and can be repeated.
- 0-1 = the element is optional and occurs only once.
- 0-n = the element is optional and can be repeated.

The column “Allowed values” provides information about the type of input allowed in the respective fields:

- FT = free text input
- CV = controlled vocabulary
- YYYY = date indicating year
- YYYY-MM = date indicating year, month
- YYYY-MM-DD = date indicating year, month, day
- NUM = numerical input
- ALPHANUM = alphanumerical input
- CHECK = Checkbox (true, false)

Table 2: Archiving Basis metadata elements

Nr.	Element name	Occ.	Allowed values	Comments/Definition
Identifiers				
0	Identifier			
0.1	Digital Object Identifier (DOI)	1	ALPHANUM	Persistent identifier registered with the International DOI Foundation. Assigned automatically upon publication.
0.2	DSpace ID	1	NUM	Identifier unique within the Archiving Basis DSpace repository. Assigned automatically upon creation of submission.
Basic information				
1	Title	1	FT	The title under which the data set(s) or syntax/code will be listed after publication, e.g., in the GESIS Search.
2	Other title	0-n	FT	A different title or titles for the resource, e.g., a subtitle.
2.1	Other title type	1	CV	Mandatory if “Other Title” is used. *** The type of title. See CV2.1 Other title type.
3	Primary researcher	1-n	FT	Container element. The persons or institutions primarily responsible for the creation of the resource.
3.1	Name	0-1	FT	Mandatory if “Institution” is not used. Required input: Name, First name
3.2	Institution	0-1	FT	Mandatory if “Name” is not used.
4	Publisher	1	CV	Depositors from affiliated organizations can select their organization from dropdown menu. See CV4 Publisher.
5	Publication year	1	YYYY	The year of publication of the resource. Default value: year when first deposited.
6	Availability	1	CV	The manner in which the resource can be accessed by users. See CV6 Availability.

Nr.	Element name	Occ.	Allowed values	Comments/Definition
7	Embargo until	0-1	YYYY-MM-DD	Mandatory if “Availability: Embargo” is used. *** Date when the embargo period ends. This can be 2 years after the date of publication at most.
7.1	Availability after expiration of the embargo	1	CV	Mandatory if “Availability: Embargo” is used *** The manner in which the resource can be accessed by users after the embargo period has ended. See CV7.1 Availability after expiration of the embargo.
8	Version	1	NUM	Three-digit version number. Set automatically *** Example: 1.0.0
8.1	Version changes	0-1	FT	The changes to the previous version. Recommended if version > 1.0.0.
9	Contributors	0-n	-	Container element. Persons or institutions who contributed to the resource in a role other than primary author/creator.
9.1	Name	0-1	FT	Mandatory if “Institution” is not used. Required input: Name, First name
9.2	Institution	0-1	FT	Mandatory if “Name” is not used.
9.3	Contributor type	1	CV	Mandatory if “Contributor” is used. *** Specifies the role of the contributor in the creation and/or distribution of the resource. See CV9.3 Contributor type.
10	Funder	0-n	FT	Name of an organization which funded the research project, including a project or grant ID.
11	Replication server	0-1	CHECK	Indicates whether a submitted resource is a replication package for an article (to be) published in a cooperating journal.
11.1	Journal Name	0-1	CV	The name of the journal in which the reference article will be published. See CV11.1 Journal name.
11.2	Journal Number	0-1	FT	The number of the issue in which the reference article will be published.
11.3	Journal Volume	0-1	FT	The volume number in which the issue will be published.
11.4	Reference publication	0-1	FT	The complete citation for the reference article.
12	Internal Comment for basic information	0-1	FT	Internal field for comments / questions during the deposit process.
Content				
13	Subject area	0-n	CV	The discipline to which the research data belongs. See CV13 Subject area.
14	Topic classification	0-n	CV	The name of the controlled vocabulary used to describe the topics covered by the resource. See CV14 Topic classification.
14.1	TheSoz topics	0-n	CV	Thesaurus terms from Thesaurus Social Sciences (TheSoz) to describe the topics covered by the resource. See CV14.1 TheSoz topics.
14.2	STW topics	0-n	CV	Thesaurus terms from the Standard Thesaurus Economics (STW) to describe the topics covered by the resource. See CV14.2 STW topics.
15	Abstract	0-1	FT	Description of the data, code and/or the related research project.
16	Internal comment on content	0-1	FT	Internal field for comments / questions during the deposit process.

Nr.	Element name	Occ.	Allowed values	Comments/Definition
Methodology				
17	Geographical location - State, 0-n Country (ISO-3166)	CV		The geographic coverage of the data. See CV17 Geographical location - State, Country (ISO-3166).
18	Geographical location - Region	0-n	FT	The geographic coverage of the data.
19	Temporal research design	0-1	CV	The temporal design of the research in which the data was collected. See CV19 Temporal research design.
20	Universe	0-1	FT	The population from which the sample was chosen.
21	Selection Method	0-1	CV	The sampling procedure used. See CV21 Selection method.
22	Data collection mode	0-1	CV	The method used to collect the data.
23	Survey period	0-n		Container element. The period over which the data was collected.
23.1	Date format	1	CV	The date format in which the survey period is provided. See CV23.1 Survey period date format.
23.2	Survey period start	1	YYYY, YYYY-MM, YYYY-MM-DD	Mandatory if "Survey period" is used *** The time when the data collection started.
23.3	Survey period end	1	YYYY, YYYY-MM, YYYY-MM-DD	Mandatory if "Survey period" is used *** The time when the data collection ended.
24	Internal comment on methodology	0-1	FT	Internal field for comments / questions during the deposit process.
Additional notes				
25	Type of license	0-1	CV, FT	Further conditions of reuse applying in addition to the general availability of the resource. See CV25 Type of license.
26	Publications: Citation	0-n	FT	Bibliographic reference to a publication or website related to the resource.
26.1	Publications: Publication ID	0-n	FT	An identifier, such as a DOI or a URL, for the publication.
27	Project/Data Notes	0-1	FT	Any further information about the uploaded resources and/or the research project considered important to the understanding of the resource.
28	Internal comment on the Additional Notes	0-1	FT	Internal field for comments / questions during the deposit process.
Files				
29	File name	1	FT	The name of the uploaded file.
30	Type of file	1	CV	The type of file uploaded. See CV30 Type of file.
31	File Size	1	NUM	The file size. Set automatically
32	MD5	1	ALPHANUM	The MD5 hash sum of the file. Set automatically
33	File availability	0-1	CV	Value is usually identical with value of "6 Availability" but can be set to "Free access (without registration) in case "Availability: Restricted Access" or "Embargo" is used. See CV33 File availability.
34	Version number	0-1	FT	A version number used for this resource in the creator's institution to unambiguously identify it.
34.1	Version date	0-1	YYYY-MM-DD	Date when the version number was assigned.
35	Language	0-n	CV	The language primarily used in the file. See CV35 Language.
36	Source	0-n	FT	Any sources used in the process of creating the file, e.g., questionnaire concepts.

Nr.	Element name	Occ.	Allowed values	Comments/Definition
37	Software and version	0-n	FT	Software used for data creation and required for the use, including the version.
38	Alternative ID	0-n	FT	Any identifiers this file already was assigned, e.g., DOI, URN, Handle, ISBN, etc.).
39	Related ID	0-n	FT	The identifiers for any published resources (e.g., datasets) associated with this file and not listed under "Additional Notes".
39.1	Relation type	1	CV	Mandatory if "Related ID" is used *** Defines how the file uploaded relates to the external resource named under "Related ID". See CV39.1 Relation type.
40	Additional information about the file	0-1	FT	Further information about this file not entered above and considered important for understanding and using the file.
41	Internal comment	0-1	FT	Internal field for comments / questions during the deposit process.
Additional elements of the file type Research data				
42	Number of variables	0-1	NUM	The number of variables in the dataset.
43	Number of units	0-1	NUM	The number of units in the dataset.
43.1	Unit type	1	CV	Mandatory if "Number of Units" is used *** Specification of the type of the units in the dataset. See CV 43.1 Unit type.
44	Geographical location - State, Country (ISO-3166)	0-n	CV	The geographic coverage of the data. See CV17 Geographical location - State, Country (ISO-3166).
45	Geographical location - Region	0-n	FT	The geographic coverage of the data.
46	Temporal research design	0-n	CV	The temporal design of the research in which the data was collected. See CV19 Temporal research design.
47	Universe	0-1	FT	The population from which the sample was chosen.
48	Selection Method	0-1	CV	The sampling procedure used. See CV21 Selection method.
49	Data collection mode	0-n	CV	The method used to collect the data. See CV22 Data collection mode.
50	Survey period	0-n		The period over which the data was collected.
50.1	Date format	1	CV	The date format in which the survey period is provided. See CV23.1 Survey period date format.
50.2	Survey period start	0-1	YYYY, YYYY-MM, YYYY-MM-DD	Mandatory if "Survey period" is used *** The time when the data collection started.
50.3	Survey period end	1	YYYY, YYYY-MM, YYYY-MM-DD	Mandatory if "Survey period" is used *** The time when the data collection ended.
